Abortion Free: Your Manual For Building A Pro-Life America One Community At A Time

Synopsis

Abortion is murder. There is no way around it. You can try to justify it by claiming the health of the mother, but the truth is only a small percentage (less than one-tenth of 1 percent by some counts) of the 1 million babies killed each year are to save the mother's life. Instead statistics suggest that 85 percent of all abortions are performed as a means of birth control and are three times more likely to be by a woman on Medicaid. Family planning and abortion clinics in the United States are a \$2 billion a year industry with a 1.3 percent growth for the last five years, with 40 percent of all the country's abortions being performed at Planned Parenthood. For years we have been told that legal abortions were necessary for the health and well being of the mother. It is a lie. Dr. Bernard Nathanson, cofounder of the National Abortion Rights Action League turned Christian antiabortion activist, admitted that his group lied about the number of women dying from illegal abortions. Thanks to people like Dr. Nathanson (pioneer abortionist-turned prolife activist), Troy Newman, Cheryl Sullenger, Abby Johnson (former Planned Parenthood worker), and Lila Rose (undercover antiabortion activist), the truth is out. Abortion clinics by and large are seedy, dirty, nefarious profit centers that don't care a lick about the woman or her rights. They are all about turning a quick buck. Just look at Dr. Kermit Gosnell in Philadelphia. He cut the spinal cords of live babies with scissors. Dr. Douglas Karpen in Houston twisted the heads off of live babies. Another clinic threw remains on their roof to avoid hazardous waste removal fees. Another clinic used a garbage disposal. It is becoming widely known that this is a barbaric practice that needs to be stopped. In January 2014, Gallup found that 64 percent of Americans support outlawing abortion in the second trimester and 80 percent support outlawing it in the third. Public opinion is moving in the direction of fewer and safer abortions. Over the past two decades Troy Newman and Cheryl Sullenger have honed their skills at exposing abortionists as the snake-oil salesmen they truly are, and in doing so have closed dozens of abortion clinics. People ask, Why should we close abortion clinics? Because when abortion clinics close, babies are saved! And it stops the infliction of human misery upon vulnerable women and their innocent babies. In Abortion Free

Customer Reviews

Troy Newman and Cheryl Sullenger have led the way in researching, documenting, and exposing the criminal activities and human rights violations which are rampant in the abortion industry. Thankfully, they have now captured and distilled their extensive experience into "Abortion Free," the definitive guidebook on how to expose and close abortion facilities. Every person of faith and conscience needs to read this book, share it with everyone they know, and -- most importantly -- put its advice into action. This could be the pivotal turning point in making your community abortion-free! David Bereit, National Director 40 Days for Life

Great book. A resource to immensely help women and the future of feminism. Exposing the clinics that pretend to help women yet frequently send them out in body bags. And those places have federal protection and funding. This book teaches us how to be the ones doing the exposing.

This book is a refreshing book, thinking "out of the box".. Troy has been a warrior and effective strategist in the anti-abortion movement for years. It is satisfying to hear him speak, and the book allows many pro-lifers to "hear" his message.

Troy Newman has a tremendous passion about life. This book not only reflects his passion but also his and Cheryl Sullenger's strategy to address this serious issue. From the front lines in this ongoing battle, learn what can be done to achieve the goal.

Newman and Sullenger are among the most courageous and dedicated in this battle to save the most vulnerable and innocent victims as well as the mothers, naturally destined to suffer the loss of their own flesh and blood. The evil is not stagnant as "blob of tissue" persuasive lies are replaced with the evil of suggesting baby footprint and teddy bear compassion. Abortion Free is a must read for all in this 40+ year battle to defend the beauty and gift of life and the courage women in crisis

have to embrace that gift in a situation with no simple solution.

This is a well-written book that is extremely practical for those who cannot sit idly by while innocent babies are slaughtered at abortion mills across the country. The authors recount many battles with abortion mills, abortionists, abortion supporters, and corrupt politicians and bureaucrats. They tell of the specific tactics used, name names, celebrate victories and learn from setbacks. Actions to pressure abortion mills out of business are recommended with specific steps documented to facilitate the process. Large lists of resources are also provided to steer pro-life citizens in the right direction to fight this evil industry. This book is an urgent call to action with detailed steps on how any citizen can join the fight and win.

These authors have documentations and facts to back up their statements. They remind us that women die yearly from abortions because of the deplorable conditions at most US abortion clinics. Former abortionists and former clinic workers are telling the truth about what goes on in these clinics. The authors call us all to get involved because we can all make a difference.

This is a great read and an eye opener....the saying used by pro abortionist "it is my body, my choice"...talks as if the debate is about removing one of their arms or legs...they fail to face reality and see it is not your body, it is the body of another human being, with its own body parts, heart, and blood type that is being affected.
